

# Infusion Business Software Update

VFP v8.107

25/06/2014

---

## Admin

- ▶ The backup error message displayed when a backup fails now doesn't require the Partner login password to log back in to the software **#8861**
- ▶ The opening of the GSTCODES table has been updated so it now opens in a Readonly mode. This change excludes the Reindex and GST Defaults which open a different way. **#8923**

## Customer

- ▶ The issue in the Pending Invoices screen where the wrong Invoice would display when ticking then unticking the Show All Invoices option then editing an Invoice has been resolved. **#8637**
- ▶ The issue where Customer Invoices were able to be posted twice when one user was using Post All from the Pending Invoice screen and another user using Post1 has been resolved. **#8653**
- ▶ When a Buildup Quantity on a Quote or Invoice screen is changed the Cost / Profit button now displays the correct cost value. **#8678**

## Invoices

- ▶ The same functionality on the Process button of the Invoice screen has been added to the Save button to allow a hook file to be access if present. **#8922**
- ▶ The issue from Customer Invoices being Posted to the wrong Account when Using the Search Button in the Pending Invoices screen has been resolved **#8971**

## Job

- ▶ The Job Status column order now doesn't invert every time the user re-enters the Manage Job screen. **#8669**

## Other

- ▶ Infusion now doesn't pick up the default Invoice layout when emailing a copy of the Hire document to a Customer. **#8610**
- ▶ A Stock Transfer will now process correctly when multiple users access the Transfer at the same time. **#8654**
- ▶ The Infusion Remote Access software has been updated for new staff **#8658**
- ▶ A message can now be typed in to the message box in the Who's Logged On screen. **#8674**

## Pos

- ▶ The POS Lay-by label now shows when the Quick Button is used **#8972**

## Supplier

- ▶ The SUPPOPENPOST error received when saving a Supplier Invoice with Deferred payments then Posting it has been resolved **#8635**
